## FREQUENTLY ASKED QUESTIONS

---

***If I am in an alcohol/drug treatment and prevention program, can the provider share my alcohol/drug treatment and prevention information with another Network provider without my consent?***

**No.** 42 CFR Part 2 specifically requires written consent to disclose alcohol/drug treatment and prevention information unless an exception noted in (1) above applies.

***Can my PHI be used or disclosed for other purposes if I give permission?***

**Yes.** Your PHI can be shared for purposes other than those described above, but only if you give specific permission by signing an authorization form. For example, you might give us permission to release your PHI to a provider outside of the Network to allow that provider to give you a service or treatment that you need. You have the option of saying that the authorization will remain in effect for any period of time up to 365 days, except in cases where you authorized the disclosure in order to obtain life insurance or non-cancellable or guaranteed renewable health insurance, in which case the authorization can be up to two (2) years from the date of the policy.

***If I authorize disclosure, can I revoke my authorization?***

**Yes.** Except for insurance purposes, you can revoke your authorization anytime by giving written notice to your provider. But you must do this in writing and bring it to your provider so that Network providers will stop using and disclosing your PHI. Network providers are permitted to use and disclose your PHI based on your authorization until the Network provider receives your revocation in writing. The revocation of your authorization will not affect any action by the Network provider before it was received.
