BACKGROUND AND PURPOSE

Background

The DCOR grant is focused on increasing access to medication-assisted treatment (MAT), reducing unmet treatment needs, and reducing opioid overdose related deaths in the District through the provision of prevention, treatment, and recovery support services (RSS) to individuals with OUD. The District is building a model with multiple access points to a coordinated network of treatment and RSS providers that will collaborate around the assessment, stabilization, and ongoing treatment of individuals with OUD.

LIVE. LONG. DC., the District's Strategic Plan to Reduce Opioid Use, Misuse, and Related Deaths, will continue to build the city-wide effort to ensure equitable and timely access to high-quality SUD treatment and RSS through a network of treatment services that are adequate to meet demand consistent with the criteria of the American Society of Addiction Medicine (ASAM); educate District residents and key stakeholders on the risk of OUD and effective prevention and treatment; engage health professionals and organizations in the prevention and early intervention of SUD among District residents; support the awareness and availability of, and access to, harm reduction services in the District consistent with evolving best and promising practices; develop and implement a shared vision between the District's justice and public health agencies to address the needs of individuals who come in contact with the criminal justice system; and prepare for program sustainability through evaluation, planning, and performance monitoring and training.

This RFA represents an essential component of the work the District is doing through LIVE. LONG. DC. Specifically, Goal 2 in LIVE. LONG. DC. is to "Educate Washington, DC residents and key stakeholders on the risks of opioid use disorders and effective prevention and treatment options" and Strategy 2.3 is to "Conduct outreach and training in community settings (e.g., after-school programs, summer camps, churches, and community centers) to engage youth, parents, educators, school staff, and childcare providers on ways to effectively communicate regarding substance use disorder and engage/ support those impacted."

Implementing the proposed tasks in this RFA will also support the work of the Substance Abuse and Mental Health Services Administration (SAMHSA). Every September, SAMHSA sponsors Recovery Month to increase awareness and understanding of mental and substance use disorders and celebrate the people who recover. The 2019 [theme](#) is Join the Voices for Recovery: Together We Are Stronger.
