BACKGROUND & PURPOSE

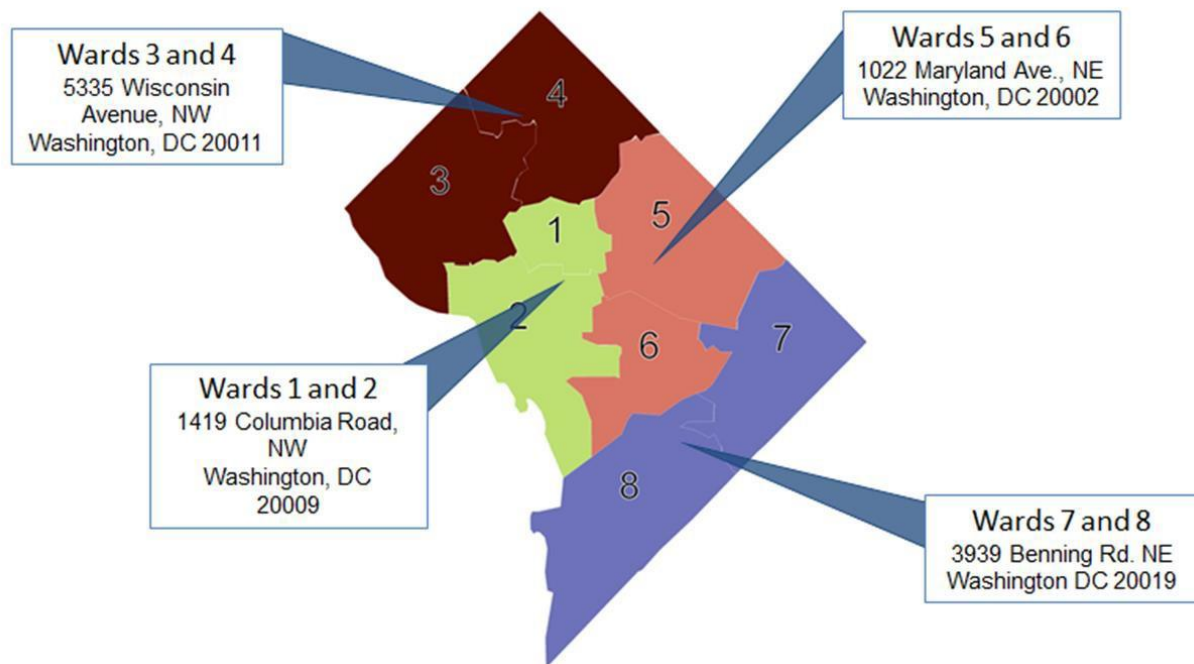

Background

Prevention services are designed to strengthen communities as places where children and youth are safe, connected in positive ways to others, and supported by involved responsible adults. It also involves developing and strengthening the capacity of the District's prevention provider network to meet the challenging substance use disorders (SUD) prevention needs within the eight (8) Wards and 120 neighborhoods.

DBH supports specific prevention approaches that are designed to significantly contribute to the development of a sustainable prevention infrastructure in the District of Columbia. This infrastructure supports efforts to prevent the onset, reduce risk, interrupt the progression of use, and avoid the consequences of SUD in the District. The infrastructure includes DC Prevention Centers (DCPCs) that strengthen community capacity, address needed community and system changes, reduce risk factors, and achieve target outcomes for District youth (see Diagram A).

This RFA provides funding for eligible applicants located in Ward 3 identified as Community Prevention Networks (CPNs), community based organizations, and/or non-profit organizations focused on substance use prevention, to develop and implement a combination of an evidence-based intervention and environmental strategies to prevent opioid misuse among youth and young adults between the ages of 12 to 25. The RFA is designed to determine the readiness of applicants to fully develop and implement a data-driven SPF planning process to achieve target outcomes. Applicants that receive a grant award are expected to develop a Work Plan (based on logic models provided by DBH) for the prevention and reduction of opioid misuse among youth in Ward 3. The successful applicant will receive additional training in the SPF planning process through DBH (if applicable).

Purpose

The purpose of the DC Opioid Response (DCOR) Prevention Grant is to address the unmet needs and reduce opioid overdose related deaths in DC through the provision of prevention, treatment, and recovery support services. Specifically with regard to prevention efforts, the District is seeking qualified applicants to identify, select, and implement appropriate evidence-based interventions and environmental strategies for addressing opioid misuse. This grant funding shall target youth and young adults between the ages of 12 to 25 living in Ward 3. All eight (8) Wards have been defined as “high need communities” for prevention.

The DCOR Prevention grant premise is that changes at the community level will, over time, lead to measurable changes at the District level. By working together to foster changes, the District and their funded communities of high need can more effectively begin to overcome the challenges underlying their substance use prevention priorities and achieve the goal of the DCOR program. Grantees are expected to implement a combination of an evidence-based intervention and environmental strategies that achieve the target outcomes of the DCOR grant.

Prevention research suggests that youth do not engage in substance use solely because of personal characteristics, but rather because of a complex set of risk and protective factors in their environment. These factors include the rules and regulations of the social institutions to which individuals belong (e.g., trust, social ties, relationships and exchanges among people); the norms of the communities in which they live; the messages to which they are exposed; and the availability to minors of alcohol and other drugs.

Under this RFA, the following statements and definitions are applicable:

1. **Youth and young adults** are defined as persons between the ages of 12 to 25.
2. **Community readiness** includes but is not limited to a history of community cooperation on substance use prevention issues; financial and human resources dedicated to prevention; strength of community leadership dedicated to prevention; demonstrated commitment to working cooperatively in community partnerships; demonstrated leadership capacity for serving as catalysts for change; and active prevention efforts already underway as demonstrated by changes in the community facilitated by multiple sectors, a variety of appropriate strategies, and data driven outcomes.
3. **The Strategic Prevention Framework (SPF)** is a five step planning process that includes: 1) assessment; 2) capacity building; 3) planning; 4) implementation; and 5) evaluation. Sustainability and cultural competence are key elements across all five steps. For more information on the Strategic Prevention Framework (SPF) planning process, visit the SPF page (<http://www.samhsa.gov/spf>) on the Substance Abuse Mental Health Services Administration’s (SAMHSA) website.
4. **The Conceptual Framework (Attachment IX)** is a visual diagram based on the Theory of Change which describes the problem, the risk factor(s), the local conditions in the designated high need community, and also helps identify and select the evidence-based intervention and environmental strategies best suited to address those specific risk factors and local conditions.

5. **Opioids** (as defined by The National Institute on Drug Abuse) is a class of drugs that include the illegal drug heroin, synthetic opioids such as fentanyl, and pain relievers available legally by prescription, such as oxycodone (OxyContin®), hydrocodone (Vicodin®), codeine, morphine, and many others.
6. **Evidenced-based** (as defined by The Substance Abuse and Mental Health Services Administration (SAMHSA)) consists of:
 - Inclusion in federal registries of evidence-based preventive interventions;
 - Positive effects on the primary targeted outcome reported in peer-reviewed journals; and
 - Documented effectiveness by other sources of information and the consensus judgment of informed experts as described in the following set of guidelines, all of which must be met: 1) the intervention must be based on a theory of change that is documented in a clear conceptual model; 2) the intervention is similar in content and structure to interventions that appear in registries, the peer-reviewed literature or both; 3) the intervention is supported by documentation that it has been effectively implemented multiple times in the past, in a manner attentive to scientific standards of evidence, with results that show a consistent pattern of credible and positive effects; and 4) the intervention is reviewed and deemed appropriate by a panel of informed prevention experts, including well-qualified prevention researchers who are experienced in evaluating prevention interventions similar to those under review, local prevention practitioners, and key community leaders as approved.

Applicants will be provided with two (2) pre-approved evidence-based preventive interventions, one of which can be used in their SPF planning process.

7. **Environmental Strategies** (as defined by The Substance Abuse and Mental Health Services Administration (SAMHSA)) includes:
 - Universal prevention approaches that include the use of environmental prevention strategies, which are tailored to local community characteristics and address the root causes of risky behaviors by creating environments that make it easier to act in healthy ways. The successful execution of these strategies often involves lawmakers, local officials, and community leaders, as well as the acceptance and active involvement of members from various sectors of the community (such as business, faith, schools, and health). For example, the use of this type of strategy to raise awareness on the need to dispose of unused prescription opioids so that fewer young people can access someone else's prescription, resulting in individuals beginning to safely dispose of unused medications and thus, opioid misuse becomes less convenient.
 - Environmental change strategies have specific advantages over strategies that focus exclusively on the individual. Because they target a much broader audience, they have the potential to produce widespread changes in behavior at the population level. Further, when implemented effectively, they can create shifts in both individual attitudes and community norms that can have long-term, substantial effects.

Applicants will be provided with one (1) DBH-required environmental strategy, several optional environmental strategies, and additional resources that can be used in their SPF planning process.

8. **The Spectrum of Preventive Interventions** (Diagram B) from the Institute of

Medicine (IOM) is organized on three levels:

- Universal strategies targeted to the general public or whole population that have not been identified on the basis of individual risk;
- Selective strategies targeted to individuals or a population sub-group whose risk is significantly higher than average; and
- Indicated strategies targeted to individuals who are identified as having minimal but detectable signs or symptoms foreshadowing a disorder or biological markers indicating predisposition but do not meet diagnostic criteria at this time.

Risks exist in multiple domains of a young person's life. Affecting a single risk factor in a single domain may not significantly reduce problem behaviors. The following are generalizations about risk-focused prevention:

- The more risk factors present, the greater the risk;
- Common risk factors predict diverse problem behaviors;
- Risk factors show much consistency in effects across different races, cultures, and classes. While levels of risk factors may vary in different racial, cultural or socioeconomic groups, they appear to operate in the same way in different groups; and
- Protective factors may buffer exposure to risks.

Selected preventive interventions should address the following risk-focused principles:

- Know which of the identified risk factors to be addressed and how the preventive intervention(s) will reduce the risks;
- A preventive intervention must be plausible and show a logical connection between the approach and the reduction of risk;
- Address risk factors at appropriate developmental stages;
- Intervene early before the behavior stabilizes;
- Include those at risk, e.g., high risk individuals exposed to multiple risk factors or high risk communities;
- Address multiple risks with multiple strategies; and
- Address the racial, cultural, and economic diversity of the community.

2. The start and end dates for the award shall be the project period indicated on the fully executed NOGA, unless amended by the Department of Behavioral Health. The project period is the total time DBH has programmatically approved a project (federal/local) for support.
3. The budget period is usually 12 months long. However shorter or longer budget periods may be established for programmatic or administrative reasons. The budget period will be indicated on the NOGA and will show the total approved budget for the applicable budget period.
4. The Grantee shall provide services and conduct activities for the purpose established by the terms of the Agreement and the authorizing fund source, which is located on the NOGA and purchase order assigned to the award.
5. DBH shall issue a NOGA for each budget period, subject to satisfactory performance of the Grantee, Grantee eligibility and the availability of funding.
6. The project period, budget period and allocations of funding in each period shall be outlined in the NOGA. The fund source (e.g. federal or local funds administered by DBH) will also be stated in the NOGA. The total obligation by DBH under the grant shall not exceed the amount stated as maximum amount for the planned project period. The total award amount shall be apportioned by budget period outlined on the NOGA. The Grantee shall not exceed the amount of the total award that is apportioned to the budget period. Grantees must ensure that funds do not supplant resources that have been budgeted for the same purpose through other sources. Applicants or award recipients may be required to demonstrate and document that a reduction in resources for programs occurred for reasons other than the receipt of grant funds.
11. The Grantee shall establish a system of accounting that ensures that funds awarded under the NOGA are not commingled with other funding sources (i.e., same funding source as another NOGA, similar service area). Where the Grantee's accounting system cannot comply with this requirement, the Grantee shall establish a system to provide adequate funding accountability for the program.
12. The Grantee shall establish a system of accounting that tracks program income generated through the grant award. All Grantees that generate program income must comply with 45 CFR §§ 216, 307 (as applicable) and report any program income to DBH on all invoices submitted.

Grant Award Contingent on Available Funding

The grant award and DBH's distribution of funds pursuant to the grant award are subject to the availability of funding from the sources identified in the NOGA for the particular grant opportunity or project.

DBH's ability to provide funds is, and shall remain subject to, the provisions of:

1. The Federal Anti-Deficiency Act, 31 U.S.C. §§ 1341, 1342, 1349, 1351;

2. The District Anti-Deficiency Act, D.C. Official Code § 47-355.01-355.08; and
3. Any amendments to these statutes.

This grant shall be subject to termination at any time, in whole or in part, if adequate funds are not made available or appropriated for the program in question.

Grant Match: Projection and Documentation

When documentation of a grant match is required:

1. In support of an application, the applicant must provide a line item budget and budget narrative including the match for the proposed project; and
2. In support of an award, the Grantee must provide the following, which must be acceptable to DBH, unless DBH revises or waives the requirement in writing:
 - a. Documentation of in-kind match, including, for example, services of an employee. These services must be valued at the employee's regular rate of pay plus an amount of fringe benefits that is reasonable, necessary, allocable, and otherwise allowable. The value of donated space must not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space and facilities in a privately owned building in the same locality.

Bonding Requirements

A bond is not required of the Grantee unless DBH states the requirement in writing. If DBH does require a bond, the Grantee before accepting the grant must secure the bond in an amount no less than the total amount of the funds awarded, against losses of money and other property:

1. Caused by fraudulent or dishonest act, and
2. Committed by an employee, board member, officer, partner, shareholder, or trainee.

Payment

1. The Grantee will be compensated for work performed and expenses incurred of a sum not to exceed the total amount contained in the NOGA or any official revision to it.
2. DBH will not reimburse the Grantee for grant-related expenditures made before the begin date.
3. The Grantee may submit its invoices for grant-related reimbursement according to the fund disbursement schedule as stated in the NOGA. Invoices must be sent through the appropriate portal as stated in the NOGA and the related District "Purchase Order."
4. The Grantee's accounting practices must be consistent with 45 CFR Subpart E, Cost Principles and support the accrual of cost as required by the cost principles and must provide for adequate documentation to support cost charged to the grant award.
5. The Grantee's payment request must include a signed invoice on organization letterhead with federal tax identification number and supporting documentation. The submittal to DBH must include:
 - a. For employee labor: For the relevant billing period, a payroll report, with information drawn from an official book of record, like a payroll register, official time sheet or time card(s) approved by appropriate Grantee representative.
 - b. For other expenditures: Expenditures must be supported by invoices or receipts.
6. The Grantee must keep backup documentation, to show:
 - a. For Grantee AND any Grantee contractor or sub-grantee:
 - i. For labor: the official books and records information showing employee name, title, hours worked that are charged to the grant, and pay rate for the period (typically like a payroll register, official time sheet or time card(s)); and,
 - ii. For non-labor: invoices and receipts that identify or describe the invoiced item, showing quantity, rate or price, and for procured items including contractor and sub-grantee invoices, proof of payment.
7. In most circumstances, DBH will require documents supporting an accounting entry before releasing payment. Such information may include:
 - a. General ledger screen shots or excerpts, showing paid bills or expenditures;
 - b. Copies of cancelled checks or bank statements of electronic transfers;
 - c. Statements from contractor, subcontractor and vendors that their bills have been paid; or
 - d. Reports of on-site inspections or audits.
8. In certain circumstances, and at DBH's sole discretion according to its policy, DBH may provide a portion of grant funds for the Grantee's start-up costs as an advance payment.
9. Notwithstanding the above, DBH at its sole discretion may withhold payment if DBH determines that the Grantees failed to comply with term[s] of the grant award.

Fund Disbursement

1. DBH reserves the right to withhold any payment if the Grantee is found in non-compliance with the DBH Notice of Grant Award or the Grant Agreement, and fails to correct any deficiencies within a reasonable time frame as determined by DBH. DBH shall determine the extent of the payment to be withheld under this provision.
2. Deposit and Security of Funds - The Grantee shall account for and reimburse the District Government any interest earned on advance grant award payments no later than twenty (20) business days from the end of each DC Government Fiscal Year (September 30) and no later than thirty (30) business days after the expiration of the Grant Agreement. All payments shall be made by check or money order made payable to the "D.C. Treasurer" and mailed to Office of Finance & Treasury, 1101 4th Street, SW, Suite 850W, Washington, DC 20024.
3. The Grantee shall submit expenditure reports and requests for payment in accordance with the terms and options outlined in the Fund Disbursement Schedule and Terms.

Unethical Conduct

1. The Applicant/Grantee shall avoid all unethical conduct with respect to securing and administering granted funds, with ethical conduct to be measured generally, but not wholly, against the provisions of the District Ethics Manual (most recent edition as of the time the grant is awarded), found at www.bega.dc.gov, under the heading for documents.
2. Though not an exhaustive list, the Grantee shall avoid the following:
 - a. Apparent and actual conflicts of interest;
 - b. Contributing to a violation of the District's restrictions on gifts to District personnel;

 - d. No Applicant/Grantee shall employ or retain a person or selling agency to solicit or secure this grant, a payment under it, or an amendment, upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee. Except, an applicant or grantee may condition its compensation for a bona fide employee on grant-related job performance, and may retain an attorney for compensation permitted by the District's Rules of Professional Conduct; and
 - e. With respect to grant funds, the Grantee and Grantee's employees, officers, or agents shall not solicit or accept a gift, gratuity, favor, or anything of monetary value from a contractor, subcontractor, vendor, party to a related agreement, or a beneficiary of this grant except as may be allowed under the District Ethics Manual for items that are unsolicited and of nominal value.

Contracts, Subcontracts, or Sub-Grants

1. **Nothing in the Grant award shall be construed to create a contractual relationship between DBH and Grantee's contractor, subcontractor, sub-grantee, or vendor.**
2. Any grant-related work and/or activity that is contracted, subcontracted, or sub-granted is subject to applicable District and federal law and DBH review and approval. The Grantee shall give DBH advance notice of contracts, subcontracts, and sub-grants sufficient to allow DBH to determine whether its approval is needed, and if so, whether approval must come before Grantee's execution of the contract or sub-grant.
3. The Grantee's contract or sub-grant shall specify that the contractor or sub-grantee, and its contractors, subcontractors, or sub-grantees, shall be subject to the conditions and prohibitions of the Grant Award.
4. Warranties for labor and materials shall be obtained for purchases of materials and labor having an aggregate value of over \$5,000. These warranties shall be valid for at least two (2) years. DBH may waive this requirement in writing for demonstration of good cause or research grants.
5. If the Grantee, its contractors, subcontractors, or sub-grantees disturbs work guaranteed under another District contract or grant, the Grantee shall be responsible to restore the disturbed work to a condition comparable to its original condition and warranty such restored work, or alternatively pay the District for the damage.
6. No grantee shall use grant funds to procure services or materials from a vendor, contractor, or subcontractor that is suspended or debarred by the District or the federal government as may be found here: <https://ocp.dc.gov/page/excluded-parties-list> (DC), and here: <https://www.sam.gov/SAM/> (Federal).

Establishing and Managing Sub-Awards

If the Grant authorizes or provides for sub-awards, as a pass-through entity, the Grantee must:

1. Be responsible for selecting sub-awardees and as appropriate conducting sub-award competitions. When using DBH or federal pass-through funds, the Grantee will establish a fair, open, transparent competitive process for the awarding of funds either through a contract, cooperative Agreement or grant instruments. A competition is a process that provides for the following:
 - a. Notice of Funding has been publicized;
 - b. Applications are easily available to all prospective applicants;
 - c. Applications are reviewed in an objective manner against an established public scoring criteria; and
 - d. Reviewers have no conflict of interest with any of the submitting applicant organizations.
2. Funds disbursed in a non-competitive manner may be disallowed and appropriate grant management sanctions issued.
3. The Grantee will submit for approval any Requests for Proposal or Requests for Applications before released.
4. The Grantee will submit for approval the unsolicited grant submission process before it is announced.
5. The Grantee shall ensure that all sub-award agreements are in writing, meet all legal and regulatory requirements and address all of the elements for sub-award agreements identified in the NOGA.
6. The Grantee shall establish and follow a system for monitoring sub-awardee performance that includes elements required by the grant award, the SAMHSA grant award (if applicable) and this Appendix, and report the results of the monitoring in performance reports required by this document and/or the grant award.
7. The Grantee shall establish and maintain an accounting system that ensures compliance with the maximum funding limitation established in the grant award, the SAMHSA grant award (if applicable) and with the requirements for payment of costs under the grant. This includes establishment of written procedures for determining that sub-award costs are allowable under the terms and conditions of the grant award and this Appendix, and may provide for determinations on a pre-award basis, through ongoing monitoring of costs that sub-grantees incur, or a combination of both approaches, provided the Grantee documents its determinations.

Modifications of the Grant, including Extensions and Increases

The terms and conditions of the grant may be modified only upon DBH's prior written approval. The modification shall take the form of an amendment to the NOGA.

1. Through an amendment, DBH may, *inter alia*, increase or reduce the grant amount and/or extend or reduce the project period.
2. If DBH notifies the Grantee that a funding increase or an extension of the project period is available, the Grantee must apply for the increase or extension in writing according to the terms of the DBH notification.
3. All grantees must apply for no-cost extensions sixty (60) calendar days in advance of the grant's then-current end date. The application must justify the amendment, and include a description of proposed changes to scope, performance schedule, description of proposed outcomes, and budget.

Staffing Plan, Work Plan, Budgets and Organizational/Personnel Requirements

Upon signing the Grant Agreement, the Grantee shall have and maintain on file with DBH an approved staffing plan, work plan and budget. The Grantee must implement the funded program in accordance with requirements outlined in approved staffing plan, budgets and work plans. Any revision or alteration of these plans must have prior approval by the Project Director or his/her designee. Further:

1. The Grantee shall maintain a current organizational chart, which displays organizational relationships and demonstrates who has responsibility for administrative oversight and supervision over each priority service activity.
2. The Grantee shall ensure that adequate, competent and trained personnel are provided to oversee the implementation of the activities supported by the grant.
3. The Grantee shall ensure that personnel records, background checks (if applicable under the governing statutes or regulations), job descriptions, application for employment, licensing or certification criteria, descriptions of duties, hours of work, salary range and performance evaluation criteria are maintained in individual personnel records for staff assigned to the funded project.
4. The Grantee must maintain record of personnel actions, including time records, documentation of all training received, notation of any allegations of professional or other misconduct including a detailed description of the allegations, and if terminated, the date and reason for the termination from employment. All these personnel materials shall be made available to the Project Director upon request.
5. The Grantee shall provide orientation session for staff members that addresses the Health Information Portability and Accountability Act (HIPAA), the D.C. Mental Health Information Act (D.C. Code § 7-1201.01 *et seq.*), 42 CFR Part 2 (if applicable), administrative procedures, program goals, cultural sensitivity, language access, conflict of interest, workplace sexual harassment policies and policies and procedures to be adhered to under the terms of the grant Agreement.
6. The Grantee must notify the Project Director if there is a change in staffing or operations management of the organization that impacts the project funded under the Agreement.
7. The Grantee shall seek approval of any changes in staffing plans or job descriptions for staff assigned to the grant.

Profit and Program Income Requirements for Commercial Organization Grantees

All commercial organizations awarded DBH sub-grants funded in whole or part by the United States Department of Health and Human Services (HHS) shall comply with 45 CFR § 75.216 and any other applicable federal or District law or regulation governing profit and program income. Specifically, with the exceptions of grant awards made under the Small Business Innovation Research (SBIR) and Small Business

Technology Transfer (STTR) programs, no HHS funds may be paid as profit to any for[-profit] commercial organization even if the grantee is a commercial organization. Profit is any amount in excess of allowable direct and indirect costs.

Except for grants for research, program income earned by a commercial organization may not be used to further eligible project or program objectives except in the SBIR or STTR programs.

Commercial organizations that receive awards (including for-profit hospitals) have two options regarding audits:

- (a) A financial related audit of a particular award in accordance with Generally Accepted Government Auditing Standards issued by the Comptroller General of the United States, in those cases where the commercial organization receives awards under only one HHS program; or if awards are received under multiple HHS programs, a financial audit of all awards in accordance with Generally Accepted Government Auditing Standards issues by the Comptroller General of the United States; or
- (b) An audit that meets the requirements of 45 CFR Subpart F.

Commercial organizations that receive annual awards totaling less than the audit requirements of 45 CFR Subpart F are exempt from the audit requirements for that year. However, records must be available for review by appropriate officials of federal agencies or the Government Accountability Office.

Profit and Program Income Requirements for Non-Federal Entities

Pursuant to 45 CFR §§ 75.2, 75.307, a non-federal entity (a state, Local government, Indian tribe, institution of higher education (IHE) or nonprofit organization that carries out a federal reward as a recipient or a sub-recipient) is encouraged to earn income to defray program costs where appropriate. All non-federal entities in receipt of sub-grants funded in whole or part by HHS must adhere to the requirements of 45 CFR §§ 75.307, 75.407 concerning program income.

Indirect Cost

Facilities and Administration Classification. For major IHEs and major nonprofit organizations, indirect (F&A) costs must be classified within two broad categories: “Facilities” and “Administration.” “Facilities” is defined as depreciation on buildings, equipment and capital improvement, interest on debt associated with certain buildings, equipment and capital improvements, and operations and maintenance expenses.

“Administration” is defined as general administration and general expenses such as the director's office, accounting, personnel and all other types of expenditures not listed specifically under one of the subcategories of “Facilities” (including cross allocations from other pools, where applicable).

Identification with a Federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect (F&A) costs of Federal awards. However, typical examples of indirect (F&A) cost for many nonprofit organizations may include depreciation on buildings and equipment, the costs of operating and maintaining facilities, and general administration and general expenses, such as the salaries and expenses of executive officers, personnel administration, and accounting.

Any non-Federal entity that has never received a negotiated indirect cost rate, may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. As described in 45 CFR§ 75.403, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used

consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.

Any non-Federal entity that has a current federally negotiated indirect cost rate may apply for a one-time extension of the rates in that agreement for a period of up to four years. This extension will be subject to the review and approval of the cognizant agency for indirect costs. If an extension is granted the non-Federal entity may not request a rate review until the extension period ends. At the end of the 4-year extension, the non-Federal entity must re-apply to negotiate a rate. Subsequent one-time extensions (up to four years) are permitted if a renegotiation is completed between each extension request.

Client Records (if there are no client services provided, this term is not applicable)

1. The Grantee shall establish and maintain a protocol for maintaining and storing client records that is compliant with the HIPAA security and privacy rules, the Mental Health Information Act (D.C. Code § 7-1201.01 *et seq.*) and 42 CFR Part 2 (as applicable). This protocol shall be available to the project director on request.
2. The Grantee shall provide the Project Director, and other authorized representatives of the DBH access to program evaluators, quality assurance specialists, data management analysts and clinical records as may be necessary for monitoring purposes.
3. The Grantee shall retain all records for at least three (3) years following closeout of the grant.
4. The Grantee will ensure that information in client files is current. Client files will be considered inactive if not updated within a 6-month period.
5. DBH reserves the right to remove client records from the Grantee's location or property to review and /or copy records.

Facilities Controlled By the Grantee

1. The Grantee's facilities used during the performance of this agreement shall meet all applicable federal, state, and local regulations for their intended use throughout the duration of this agreement. The Grantee shall maintain current all required permits and licenses for the facilities. The Grantee's failure to do so shall constitute a failure to perform the agreement and shall be a basis for termination of the agreement for default.
2. The Grantee shall identify an emergency site facility to finish the grant activities in the event that the primary facility becomes unavailable for use due to a catastrophic event.
3. Each facility controlled by the Grantee that is used for activities under the grant shall be accessible to mobility-limited persons consistent with the Rehabilitation Act of 1973 as amended, 29 U.S.C. §§ 701 *et seq.*, and the Americans with Disabilities Act, 42 U.S.C. §§ 12101 *et seq.*
4. All supplies and services routinely needed for maintenance and operation of the facility, including but not limited to, security, janitorial services, and trash pick-up, shall be provided by the Grantee.

Entry onto a Project Site and to Records

The Grantee shall provide DBH and its designee with access to books and records for the funded project. The Grantee also shall secure from the relevant property owners permission in writing for DBH and its designee to access a project site(s) at reasonable times to inspect the work performed by the Grantee, its contractor, subcontractor, sub-grantee, or vendor. The Grantee shall obtain the written consent in advance of performing the work.

Grant Purchases, including Equipment, exceeding \$5,000 per unit, if applicable

1. The Grantee shall not purchase with grant funds equipment or supplies exceeding \$5,000 per unit cost ("Big Grant Purchase") without DBH's prior written agreement.
2. For each Big Grant Purchase, the Grantee shall give advance written notice to DBH to allow DBH to approve or disallow the purchase.
3. Identification of a Big Grant Purchase in DBH-approved proposal constitutes approval of the Big Grant Purchase. If a Big Grant Purchase is not identified in a DBH-approved proposal, advance notice shall be given four (4) weeks in advance of the commitment to purchase. DBH may waive this time period in writing for good cause.
4. Within sixty (60) calendar days of execution of the award, the Grantee must provide the Project Director with an inventory of all equipment and supplies with a purchase price not exceeding \$5,000 (per item) purchased with grant funds.
5. For all Big Grant Purchases, the Grantee shall maintain an inventory record ("Big Grant Purchase Inventory") showing:
 - a. Purchase price;
 - b. Grant number;
 - c. Name of item;
 - d. Manufacturer's name;
 - e. Serial number (if applicable);
 - f. Acquisition history (purchase order, invoice, packing slip);
 - g. Guarantee or warranty lapse date;
 - h. Storage location;
 - i. Unit price; and
 - j. Additional costs, if any, for transportation, installation, and taxes, each as a separate item.
6. The Big Grant Purchase Inventory shall be updated annually, or at the expiration of the budget period, whichever occurs first.
7. All equipment and products purchased above \$5,000 with grant funds should be American-made when possible.
8. DBH may inspect and reclaim all or part of the inventoried equipment within 12 weeks after the expiration of the grant.

Major and Unusual Incident (MUI/UI) Reporting

The Grantee shall adhere to the DBH Policy 480.1A, Reporting a Major Unusual Incident and an Unusual Incident, and any succeeding policy, for reporting major unusual incidents and unusual incidents to DBH. Specifically, the Grantee shall report by telephone or email each unusual incident or major unusual incident involving or affecting the Grantee's performance of the Grant award to the person identified as the Project Director within twenty-four (24) hours of the incident or learning of the incident. The initial report may be oral or by e-mail. The Grantee shall also communicate a full description of the unusual incident or major unusual incident in writing within five calendar (5) days after the initial report pursuant to the requirements of DBH Policy 480.1A. The Grantee shall not send any communication to DBH regarding an unusual incident or major unusual incident by fax.

An unusual incident is an event that is significantly different from the regular routine or established procedure that does not rise to the level of a major unusual incident (MUI). Examples include, but are not limited to, an injury, a traffic accident, a theft, of the firing or resignation of a principal staff member or contractor identified in the Application.

A major unusual incident (MUI) is an adverse event that can compromise the health, safety or welfare of persons; employee misconduct; fraud; and actions that are volatile of law or policy. Examples include, but are not limited to: unusual injury or death; unexplained absence of a client from a residence or program;

physical, sexual, or verbal abuse of a client by staff or other clients; fire, theft, destruction of property, or sudden serious problems in the physical plant; complaints from families or visitors of clients; requests for information from the press, attorneys, or government officials outside of DBH; client behavior(s) requiring attention of staff not usually involved in their care; and/or any other unusual events that may require Project Director intervention.

 - b. Failure of Grantee to follow District or applicable federal law, including statutes, rules, and regulations;
 - c. Failure of the Grantee to carry out DBH's ordered grant corrective action plan;
 - d. An ethics violation involving the grant, pursuant to ethical standards in the most recent version of the District's Ethics Manual, published by the District's Board of Ethics and Accountability (bega.dc.gov), as of the date that the Grant Award Notice was sent, or violation of any ethics law or regulation; or
 - e. Fraud, waste or abuse by the Grantee.

Termination for Force Majeure or Cause

1. For *force majeure* DBH may terminate the grant and Grantee may seek certain reimbursement, as described in this section.
2. For cause DBH may terminate the grant, but the Grantee may not receive the reimbursement allowed for termination on the basis of *force majeure*.
3. Cause and *force majeure* defined:
 - a. Cause is a basis for DBH's termination of the grant, when DBH determines that the Grantee has:
 - i. Failed to achieved the intended outputs within the time frame that has been approved;
 - ii. Performed incompetently; or
 - iii. Performed recklessly.
 - b. *Force majeure* is a condition or occurrence which provides a valid excuse for failure to perform within the time frame of the grant, an unexpected and disruptive event which DBH determines could not have reasonably been anticipated or controlled, and includes:

 - ii. A change in applicable law;
 - iii. An unforeseen weather event;
 - iv. Organized labor strike or slowdown; and
 - v. Refusal of a necessary third party to approve, agree or participate following the Grantee's reasonable attempts to secure the same.
4. The Grantee may not invoke *force majeure* as an excuse for poor planning, failure to accommodate foreseeable delays by suppliers, or the Grantee's failure to manage its own resources.
5. For *force majeure*, the Grantee may seek reimbursement for otherwise-reimbursable expenditures incurred up to the date of termination, as well as reasonable costs incurred for demobilization.

Transition Plan for Continuity of Services

It is essential that continuity of services be maintained under this grant for the residents of the District of Columbia and applicable jurisdictions. Therefore, if the awarded grant expires or is terminated:

1. The Grantee shall cooperate with both the Project Director, and any successor Grantee to enable an efficient transition from one Grantee to another.
2. If the Grantee should cease services for any reason, the Grantee is required to develop a transition plan to ensure the appropriate referral of clients to other providers. A transitional plan must be developed and available for review by DBH within ten (10) business days upon determination that services will cease. Failure to provide this contingency plan will be deemed as non-compliance and could result in the termination of this grant, or other appropriate action.
3. DBH reserves the right to assume responsibility for services supported by the grant.

Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93). The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

DBH Required Community-Level Environmental Strategy			
Youth Educational Forum – Ward level	Universal - Indirect	Community-organizing educational youth forum program designed to reduce youth and young adults' (12 to 25 years of age) access to opioids by talking about changing community policies and practices. Youth Educational Forum – Ward level may be one day or occur across multiple days. This event/series of events is <i>strongly suggested</i> to take place during the week of 'National Prevention Week' between Sunday, May 12, 2019 and Saturday, May 18, 2019, but may occur any time during the grant period, once approved in the work plan.	

DBH <i>Optional</i> Community-Level Environmental Strategies			
Public Education	Universal - Indirect	Strategy designed to increase the public's knowledge and awareness of opioid misuse and specific local conditions which characterize why youth are engaging in this risky health behavior. (source: https://www.samhsa.gov/capt/practicing-effective-prevention/prevention-approaches)	
Social Marketing Campaign	Universal - Indirect	Strategy which uses" advertising principles to change social norms and promote healthy behaviors. Like public education, social marketing uses multiple media channels to message targeted groups of individuals. However, social marketing campaigns do more than provide information. Photovoice Implementation and Exhibition	Universal - Indirect	Program trained by national organization CADCA and their certified trainers; Photovoice course teaches photography and caption writing as a means for advocacy and data collection for promising outcomes regarding opioid misuse prevention. Photovoice projects completed regarding alcohol, tobacco and other drugs (ATOD) have successes in creating community changes, both nationwide and in DC when implemented and exhibited to key populations of youth and adults. Both the photography and captioning in conjunction with exhibiting in key locations is a two-part approach to an effective environmental strategy.	
<i>Supplementary Additional Materials from Federal Drug Enforcement Administration (DEA) Operation Prevention</i>	Universal - Direct	The Drug Enforcement Administration (DEA) has joined forces with Discovery Education to create a comprehensive, free program to combat opioid misuse. This resource contains Virtual Field Trips, Parent Resources, English & Spanish language standards aligned K-12 tools, and a national peer-to-peer video challenge. Any supplemental materials may be used to support environmental strategy efforts to address local conditions for why/how opioid misuse is occurring in a DC specific ward.
