Amount of Funding and Grant Awards (p. 12)

Competition #4 Peer Recovery Housing: This RFA will make available \$613,360 for up to 17 awards over 1 base year with 4 option years. The amount of each award will vary depending on how many awards are made.

DCOR Background (p. 12)

- The DCOR 2 grant is focused on increasing access to MAT, reducing unmet treatment needs, and reducing opioid overdose-related deaths in the District through the provision of prevention, treatment, and RSS to individuals with opioid use disorder (OUD) and stimulant use disorder (STUD).
- DBH is particularly interested in supporting innovative initiatives under DCOR 2 that reflect the urgency that is felt about increased overdose deaths driven primarily by an increased amount of fentanyl in both opioids and stimulants (primarily cocaine and methamphetamines).
 - There have been 174 overdose deaths in the District through May 2020 compared to only 97 during the same timeframe in 2019.
 - The percentage of fentanyl or fentanyl analogs involved with opioid overdoses has steadily increased since the first quarter of 2015 (22%) to 95% in 2020.
- The increase in preventable deaths, alongside the dramatic change in the District's drug supply, calls for a move away from “business as usual” and towards creative strategies that can make meaningful, positive impact for District residents who have OUD and/or STUD.

Peer Recovery Housing Background (p. 48)

- Peer-operated recovery homes offer safe living environments that are free from alcohol and illicit drug use. This allows residents to live with individuals who are also pursuing the goals of recovery and wellness. Recovery residences are places where consumers fit in, have common experiences, and can be authentic without having to explain their addiction or recovery needs.
- Recovery residences are increasingly viewed as a viable and cost-effective alternative to established recovery-oriented systems of care, as they provide safe and healthy environments that support residents in their recovery. These communities empower individuals by providing support as they transition towards living independent and productive lives in the community.
- This RFA represents an essential component of the work the District is doing through LIVE. LONG. DC. Specifically, Goal 5 in LIVE. LONG. DC. is to “ensure equitable and timely access to high-quality (SUD) treatment and RSS through a network of treatment services” and Strategy 5.7 is to “[i]mprove the quality and quantity of support services (e.g., education, employment, community re-entry, recovery coaching, transportation, dependent care, and housing) that are available to individuals in recovery.”
