SECTION E: DELIVERY, INSPECTION AND ACCEPTANCE

E.1 GENERAL PROVISIONS

E.1.1 The inspection and acceptance requirements for the resultant Contract shall be governed by clause number six (5), Inspection of Supplies, of the Government of the District of Columbia's Standard Contract Provisions for use with Supplies and Services Contracts, dated March, 2007.

E.2 CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES

E.2.1 The Contractor shall be held to the full performance of the Contract. The District shall deduct from the Contractor's invoice or otherwise withhold payment for any non-conforming service as specified below.

E.2.2 A service task may be composed of several sub-items. A service task may be determined to be partially complete if the Contractor satisfactorily completes some, but not all, of the sub-items. In those cases, partial deductions may be taken from the Contractor's invoice.

E.2.3 The District shall give the Contractor written notice of deductions by providing copies of reports, which summarizes the deficiencies for which the determination was made to assess the deduction in payment for unsatisfactory work.

E.2.4 Therefore, in the case of non-performed work, the District:

E.2.5 In the case of unsatisfactory work, the District:

Upon the Contractor's failure to cure within ten (10) days after date of notification, the District may return the rejected materials or supplies to the Contractor at the Contractor's risk and expense.

(c) The Contractor shall provide and maintain an inspection system acceptable to the District covering supplies under this Contract and shall tender to the District for acceptance only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with Contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to the District during Contract performance and for as long afterwards as the Contract requires.

The District may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in manners that shall not unduly delay the Contract work. The District shall perform inspections and tests in a manner that shall not unduly delay the work. (i) If any of the services do not conform to the Contract requirements, the District may require the Contractor to perform these services again in conformity with Contract requirements, at no increase in Contract amount. When the defects in services cannot be corrected by performance, the District may require the Contractor to take necessary action to ensure that future performance conforms to Contract requirements and reduce the Contract price to reflect value of services performed.

(j) If the Contractor fails to promptly perform the services again or take the necessary action to ensure future performance in conformity to Contract requirements, the District may (1) by Contract or otherwise, perform the services and charge the Contractor any cost incurred by the District that is directly related to the performance of such services, or (2) terminate the Contract for default.

CLAUSES APPLICABLE TO ALL OPEN MARKET SOLICITATION

TABLE OF CONTENTS

<u>SECTION NO.</u>	<u>SECTION TITLE</u>	<u>PAGE NO.</u>
M.1	EVALUATION FOR AWARD	54
M.2	CLAUSES APPLICABLE TO ALL OPEN MARKET SOLICITATIONS PREFERENCES FOR LOCAL BUSINESSES, IS ADVANTAGED BUSINESSES, RESIDENT-OWNED BUSINESSES, SMALL BUSINESSES, LONGTIME RESIDENT BUSINESSES, OR LOCAL BUSINESSES WITH PRINCIPAL OFFICES LOCATED IN AN ENTERPRISE ZONE	54-57

M.1 EVALUATION FOR AWARD

M.1.1 Following receipt and evaluation of the Bids, a Contract shall be awarded to the lowest priced bidder whose Bid conforms with all requirements of the invitation, determined to be responsive and responsible by the Contracting Officer and shall be advantageous to the District in terms of price and price related factors.

M.2 CLAUSES APPLICABLE TO ALL OPEN MARKET SOLICITATION

M.2.1 A. Preference for Local Business, Disadvantaged Businesses, Resident Business Ownerships or Businesses Operation in an Enterprise Zone.

1. General Preferences

Under the provisions of D.C. Law 13.169, "Equal Opportunity for Local, Small or Disadvantaged Business Enterprises Amendment Act of 2000" (the "Act", as used in this section), the District shall apply preferences in evaluating offers from businesses that are local, disadvantaged, resident business ownership or located in an enterprise zone of the District of Columbia.

For evaluation purposes, the allowable preferences under the Act for this procurement are as follows:

1. Four percent reduction in the bid price or the addition of four points on a 100 point scale for a local business enterprise (LBE) certified by the Local Business Opportunity Commission (LBOC);
2. Three percent reduction in the bid price or the addition of three points on a 100 point scale for a disadvantaged business enterprise (DBE) certified by the LBOC;
3. Three percent reduction in the bid price or the addition of three points on a 100 point scale for a resident business ownership (RBO), as defined in Section 2 (a)(8A) of the Act, and certified by the LBOC; and
4. Two percent reduction in the bid price or the addition of two points on a 100 point scale for a business located in an enterprise zone, as defined in Section 2(5) of D.C. Law 12.268 and in 27 DCMR 899, 39 DCR 9087.9088 (December 4, 1992).

Any prime Contractor that is a LBE certified by the LLBOC shall receive a four percent (4%) reduction in bid price for a bid submitted by the LBE in response to an Invitation for Bid (IFB) or the addition of four points on a 100 point scale added to the overall score for bids submitted by the LBE in response to a Invitation for Bid (IFB).

Any prime Contractor that is a DBE certified by the LBOC shall receive a three percent (3%) reduction in the bid price for a bid submitted by the DBE in response to an IFB or the addition of three points on a 100 point scale added to the overall score for bids submitted by the RBO in response to an IFB.

Any prime Contractor that is a business enterprise located in an enterprise zone shall receive a two percent (2%) reduction in bid price for a bid submitted by such business enterprise in response to an IFB or the addition of two points on a 100 point scale added to the overall score for bids submitted by such businesses in response to an IFB.

B. Preferences for Sub-Contracting in Open Market Solicitations with no LBE, DBE, RBO Sub-Contracting Set Aside

The preferences for sub-Contracting in open market solicitations where there is no LBE, DBE or RBO Sub-Contracting set aside are as follows:

1. If the prime Contractor is not a certified LBE, certified DBE, certified RBO or a business located in the enterprise in an enterprise zone, the District shall award the above stated preferences by reducing the bid price or by increasing the points proportionally based on the total dollar value of the bid or bid that is designated by the prime Contractor for sub-Contracting with a certified LBE, DBE, ROBO or business located in an enterprise zone.
2. If the prime Contractor is a joint venture that is not certified LBE, certified DBE or certified RBO joint venture, or if the prime Contractor is a joint venture that includes a business in the enterprise zone but such business located in an enterprise zone does not own and control at least fifty-one percent (51%) of the joint venture, the District shall award the above stated preferences by reducing the bid price or by increasing the points proportionately in the bid based on the total dollar value of the bid or proposal that is designated by the prime Contractor for a certified LBE, DBE, RBO or business located in an enterprise zone, for participation in the joint venture.

For Example:

If a non-certified prime Contractor sub-contracts with a certified local business enterprise for a percentage of the work to be performed on an IFB, the calculation of the percentage points to be added during evaluation would be according to the following formula:

Amount of Sub-Contract

$$\frac{\text{Amount of Sub-Contract}}{\text{Amount of Contract}} \times 4 (*) = \text{Points Awarded for Evaluating LSDBE Sub-Contracting}$$

(*)Note: Equivalent of four (4) points on a 100 point scale

The maximum total preference under the Act of this procurement is twelve percent (12%) for bids submitted in response to an IFB or the equivalent of twelve (12) points on a 100 point scale for bids submitted in response to an IFB. Any prime Contractor receiving the full bid price reduction or point addition to its overall score for a particular preference shall not receive any additional bid price reduction or points for further participation on a sub-contracting level for that particular preference. However, the prime Contractor shall receive a further proportional bid price reduction or point addition on a different preference for participation on a sub contracting level

for that different preference. For example, if a LBE prime Contractor receives the four percent bid price reduction or the equivalent of four points on a 100 point scale, the LBE prime Contractor does not receive a further price reduction or additional points if such Contractor proposes sub-contracting with a DBE, the LBE prime Contractor receives a further proportional bid price reduction or point addition for the DBE participation on the sub-Contracting level.

C. Preference for Open Market Solicitations with LBE, DBE or RBO Sub-Contracting Set Aside

If the solicitation is an open market solicitation with LBE, DBE or RBO sub-contracting set-aside, the prime Contractor shall receive the LBE, DBE, or RBO preferences only if it is a certified LBE, DBE or RBO. There shall be no preference awarded for sub-contracting by the prime Contractor with a LBE, DBE or RBO, even if the prime Contractor proposes LBE, DBE or RBO sub-contracting above the sub-contracting levels required by the solicitation. However, the prime Contractor shall be entitled to the full preference for business located in an enterprise zone if it is a business located in an enterprise zone or proportional preference if the prime Contractor sub-contracts with a business located in an enterprise zone. The maximum total preference under the Act for this procurement is twelve percent (12%) for bids submitted in response to an IFB or the equivalent of twelve (12) points on a 100 point scale for bids submitted in response to an IFB.

D. Preferences for Certified Joint Ventures Including Local or Disadvantaged Businesses or Resident Business Ownerships.

When an LBOC-certified joint venture includes a local business enterprise (LBE), disadvantaged business enterprise (DBE) or a resident business ownership (RBO), and the LBE, DBE or RBO owns and controls at least fifty-one percent (51%) of the venture, the joint venture shall receive the preference as if it were a certified LBE, DBE, or RBO.

E. Preference for joint Ventures Including Businesses located in an Enterprise Zone.

When a joint venture includes a business located in an enterprise zone, and such business located in an enterprise zone owns and controls at least fifty-one percent (51%) of the venture, the joint venture shall receive the preferences as if it were a business located in an enterprise zone.

1. Contractor Submission for Preferences

Any Contractor seeking to receive preferences on this solicitation shall submit at the time of, and as part of its bid or proposal the following documentation as applicable to the preference being sought:

(a) Evidence of Contractor's, sub-contractor, or joint venture partner's certification or self certification as a LBE, DBE or RBO to include:

(1) A copy of all relevant letters of certification for the Local Business Opportunity Commission (LBOC); or

1.
 - (2) A copy of the sworn notarized Self-Certification Form prescribed by the LBOC, along with an acknowledgement letter issued by the Director of the LBOC. Businesses with principal offices located outside of the District of Columbia shall first be certified as LBE's before qualifying for self-certification.
2. Evidence that Contractor or any sub-contractor is located in an enterprise zone.

In order for a Contractor to receive allowable preferences under this solicitation, the Contractor shall include the relevant information as described in subparagraphs (a) and (b) of this clause as part of its bid.

Refer to J.2.1 for the Self-Certification Package. In order to receive any preferences under this solicitation, any Contractor seeking self-certification shall complete and submit the forms to:

Office of Local Business Development
Attn: LSDBE Certification Program
441 Fourth Street, NW, Suite 970N
Washington, DC 20001

All Contractors are encouraged to contact the Local, Small and Disadvantaged Business Enterprises Certification Program at (202) 727-3900 if additional information is required on certification procedures and requirements.

Penalties for Misrepresentation – Any material misrepresentation on the sworn notarized self-certification form could result in termination of the Contract, Contractor's liability for civil and criminal action in accordance with the Act, D.C. Law 12.268, and other District laws, including debarment.

Local, Small, and Disadvantaged Business Enterprise Sub-Contracting

When a prime Contractor is certified by the Office of Local Business Development as a local, small or disadvantaged business or a resident business ownership, the prime Contractor shall perform at least fifty percent (50%) of the Contracting effort, excluding the cost of materials, goods and supplies with its own organization resources, and if it sub-contracts fifty percent (50%) of the sub-contracting effort, excluding the cost of materials, goods and supplies shall be with certified local, small or disadvantaged business enterprises and resident business ownerships, unless a waiver is granted by the Contracting Officer, with prior approval and consent of the Director of the LBOC under the provisions of 27 DCMR 805, 39 DCR 5578.5580 (July 24, 1992). By submitting a signed bid or proposal, the prime Contractor certifies that it shall comply with the requirements of paragraph (a) of this clause.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of \$3.24 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

1) Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that

determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

J.8 PHARMACY WORKING STATION ITEM DESCRIPTIONS/ITEM SPECIFICATIONS*

Herman Miller

Pharmacy

Pharmacy on the move

What is your pharmacy operation going to look like next year? In five years? Twenty years ago, who would have thought that now you'd be planning for the digital delivery of medications and rearranging the pharmacy floor plan to accommodate robotic processes and cleanrooms to meet federal regulations. Quality programs are integrating lean initiatives—even in the pharmacy. Outpatient, retail, and decentralized pharmacies have achieved more

patient-centered delivery—and reflect larger industry shifts in healthcare. Changing work processes and the related facility implications continue to require new ways of thinking and planning.

We make it our business to understand yours

Herman Miller for Healthcare has been consulting and creating clinical and administrative applications in healing environments for nearly 40 years. Our staff of healthcare planners, designers, and clinical consultants will work with you and your pharmacy professionals to create environments that support the delivery of quality patient care and function flawlessly now and into the future.

Build lasting value

Modularity stretches your initial investment. New equipment, technologies, and procedures can be integrated with little effort ... or expense. For the most part, you will be able to use the same products in different configurations. Products that can move from the central pharmacy into administrative and retail or decentralized pharmacies throughout the hospital also improve your investment and lower your cost of ownership. Even as medication administration changes, sometimes dramatically, your modular pharmacy furnishings won't miss a beat.

Products that work as hard as you

Adjust for function

Panel-attached components adjust in one-inch increments, connect easily, and can be readjusted without disassembling panels. A variety of panel configurations and heights create a variety of layouts and meet a range of functional and aesthetic needs. Supplement existing panels as needed without starting over.

Provide comfort

A choice of ergonomically designed, innovative, and comfortable seating, including stools, is offered in finish and upholstery options to meet cleaning requirements and work process needs.

Manage and update technology and equipment

Flexible and integrated cable management allows you to make changes without tear-down or disruption and control the flow of cables and wires and keep them off surfaces and the floor. Multiple access points make adding and moving equipment easy. A wire chase rail attaches to panels for use in technology-intensive areas.

Address specific work processes

Heavy-duty process tables are height adjustable, mobile, and provide under-surface storage. Medication carts store and transport materials; drawers and bins are interchangeable with pharmacy storage components. Stainless steel tables and wire carts, in a variety of sizes, meet cleanroom regulations.

Organize and store for efficiency and accuracy

From above to below the work surface, storage options are plentiful. Work organizers attach to tiles, keeping surfaces clear and items close at hand. Our entire line of storage/transport carts can be configured to work exactly the way you need them to and move supplies as needed.

A hospital pharmacy doesn't shut down. It's a constant flurry of activity and requires products that work as hard as you. Our products and applications can improve the contribution of your pharmacy department and the productivity of your staff.

Herman Miller for Healthcare's modular pharmacy system is the efficient and effective solution to designing pharmacy applications that meet your initial needs and change along with your requirements.

Keep it clean

Our clinical products are designed for easy, thorough, and frequent cleaning. Durable thermoplastics resist chipping and scratching. Integral color keeps up appearances over time.

Design a pharmacy you want to work in

Surface materials, colors, and patterns can create a pleasant work environment. Wood-grain laminates and nature imagery warm the pharmacy; bright surfaces support detailed work; adjustable and ergonomically designed products fit the sizes and preferences of the staff.

Refresh, don't replace

Modular products can be refreshed to update aesthetics or functionality; individual components can be changed without replacing the entire pharmacy product.

Create meeting and break areas

Our breadth of line supports areas within or adjacent to your central pharmacy. Tables, seating, and casework for conference or break areas are examples.

Support administrative functions

Our administrative products will outfit your staff offices and order entry areas. A complete line of desks, seating, and storage with aesthetic compatibility to clinical products completes the pharmacy department.
